THE CHALK CREEK COAL COMPANY

New Land Incorporation In the Realty Marts-The Transfers Keep Piling

by the Sarectory lines. Among the more re-cent changes made for the accommodation of their patrons is the running of cars every fifteen and twenty minutes. Cars now run every fifteen minutes to the Eleventh ward, Sixth ward and First ward and Utah Central, and every twenty min-utes on all other routes. The Twentieth ward line, however; is to make fifteen minute trips within a few days and all the other lines will soon run at the uniform rate of fifteen minutes, electric lines, how-ever, will make trips every ten minutes. At present street cars arrive at the Rio Grande Western depot every five minutes. The work of extending the electric lines will be pushed as rapidly as the circum-

The Chalk Creek Coal Company

stances will permit. Three miles of new

statices will permit. Tarce miles of new from have been ordered and the track to Liberty park will be the next lineput in operation. When this is completed, no mule cars will run along Main street. Six more electric cars have also been ordered for the new lines.

The Chalk Creek Coal and Mining comany filed their articles of incorporation ith Clerk McMillan yesterday. The obpany filed their articles of incorporation with Clerk McMilian yesterday. The object and pursuit of the company is to purchase and own coal lands mine coal and sell the same, and to transact all business pertaining to the coal trade in all its branches. Salt Lake is named as the principal place of business, and the caulitatock is placed at \$50,000, divided into 100,000 shares at 500 cach. The stock so far subscribed is as follows:

Another New Company Another New Cempany.

The Hali & O'Donald Lithographing company, of Topcka, Kan., one of the largest houses west of Chicago, have opened a branch office at Sait Lake, under the management of H. H. Vancilef, who has an elegant line of their samples including the fluest of lithographic stationary, bank checks and drafts, blank books and office stationary. Special attention is given to mail orders.

nail orders. Write for samples and prices. Hooms 32 and 33 Aueroach building.

A Paying Southern Industry.

The Railroad Man's Sheep company which is composed entirely of railway em ployees, held its fourth annual meeting at plopees, held its fourth annual meeting at Oasis on the 21st instant, and declared a cash dividend of 81 per share. As the shares are at par (85), and the dividend does not represent nor include the lamb crop, this is a pretty fair and solid return for money invested. The old board of directors and other officers were unanimously re-elected, as follows: President, James Lat-imer: Voe-President, Joseph Gairett, Scoretary and Treasurer, J. H. Horning, H. McCarniell, M. Sinclair, B. W. Scott.

Some Lively Scenes on the Fair Grounds.

THE INTERIOR OF THE BUILDING.

Much Needed Changes Approaching Comple tion-All Work of a Permanent Nature-Ample Transportation.

The exposition grounds were alive with pairs for the coming fair. The changes and Saints, will commonce at 10 o'clock, on improvements going on are numerous and friday morning, October 4, 1889, in the important, and the special point of excel-temperature, Sait Lake city.

The officers and members of the church year is of a permanent nature. Substantial are cordially invited to be present at the stalls are being built on all sides of the grounds. On the north side are forty, on the west side forty-five, on the south Groung Q. Cannon, seventy, and on the cast eighty, making a total of 25 stalls. Those on the southern half are for horses, and the northern portion will be used for cattle and other stock. All stalls are being built with surfaced lumber and roofed with cedar shingles; they also will be painted a dark red, which will add much to their appearance and durability. THE GROUNDS

much to their appearance and durability.

THE GROUNDS

will be further improved by the construction of a number of pens for hops, sheep and similar stocks, which will be placed along the northern and eastern position of the ground, while on the south pountry of all kinds will be arranged for exhibition. The machinery will be stationed just north of the building and other out-door exhibits will be conveniently arranged. Last year temporary water pipes were laid to the grounds but this year four surface wells have been dug and fitted with jumps so that pleaty of water may be had at all times, and the supply is to be further increased. The walks from the gates to the outliding and around it have been improved by a conting of shale, eight car loads harring been put down. This will be a convenience to pedestrians, if the weather should be rainy or the dust very deep, and will also tend to keep the interior of the building cleaner. A large eating house to hold 200 people has also been built on the south side of the building.
